

What is your weather policy?

We live in the beautiful state of Colorado with ever-changing weather, and we understand that students will need practice in all types of weather conditions and situations.

Regarding Behind-The-Wheel Driving Lessons, we will drive when the roads are wet; however, we will not drive when the roads are snow-packed or icy. We obtain real-time information from CDOT about road conditions and local weather forecasts to predict when we should or should not drive. If we deem it unsafe for your student and our instructor to be out on the road, we will cancel the driving lesson and let you know by **email** first and or **phone** as secondary options as soon as possible and will work with you to reschedule that drive time.

Keep in mind we do require the drives be completed within the first 6 months of holding the permit. If your drive is cancelled due to weather and you are following TopCops required scheduling timeline you will be able to reschedule this cancelled drive for a later time or the following month.

IF you chose to wait until the last month of permit term to finish the required six hours and a drive is cancelled due to weather, we will work with you to get rescheduled as soon as possible, however there is no guarantee it will be done in the same month it was cancelled.

Utilization of the wait list tool on the scheduling page and monitoring the schedule for new openings will help expedite the rescheduling process.

If your Drive Test is cancelled, we will get you rescheduled as soon as possible. Keep in mind a slide or slip on a drive test is an automatic FAIL in the state's eyes. TopCops does not believe in setting the testing party up for failure.
